WHEREAS, I have on previous occasions sadly reported that:

"...Many of Guam's young people are dying in a different type of war;

"During last two weeks, I refer more patients to mental health clinics due to drug addiction."

"There has been an increase of persons dependent on drugs coming to our clinic - really about 100% increase. In talking with these individuals there seems to be a "holding back" of the drugs and thus making it hard to obtain. I feel there is an opportunity at present to help many who otherwise would not seek help. I cannot keep up with the load of requests coming to our clinic, however, would appreciate some help in referring these individuals elsewhere."; and
