RELATIVE TO CREATING THE APPLICATION REVIEW COMMITTEE TO REPLACE THE DEVELOPMENT REVIEW COMMITTEE, AND TO STREAMLINE THE REVIEW PROCESS FOR THE TERRITORIAL LAND USE COMMISSION/TERRITORIAL SEASHORE PROTECTION COMMISSION/GUAM NATURAL RESOURCES BOARD.

WHEREAS, Title 21, Guam Code Annotated created the Territorial Land Use Commission/Territorial Seashore Protection Commission/Guam Natural Resources Board (hereinafter collectively and individually referred to as the "Commission") and invested in the Commission the authority to review all matters pertaining to the zoning, subdivision, granting of conditional uses and variances, and other land and water related uses of public and private land and development within the Territory of Guam; and

WHEREAS, in general, matters coming before the Commission represent exceptions or departures from the Master Plan or existing land use laws of Guam and thus comprise requests for the Commission, acting on behalf of the people of Guam, to grant such exceptions; and

WHEREAS, there is a need for a more efficient and streamlined review process, which entails replacing the existing Development Review Committee (DRC) with a new Application Review Committee ("Committee" or "ARC"), and charging the ARC with the responsibility of evaluating applications for land use matters, and reporting its findings and recommendations to the Commission; and

WHEREAS, the ARC is formulated for the purpose of providing the Commission with technical and professional review, analysis, and advice through individual agency positions concerning various development activities on Guam, so that the Commission can ensure that proposed developments achieve both maximum utility and livability, through provisions for adequate utilities and facilities such as power, water, drainage, schools, parks, traffic circulation, and open spaces for light and air; and

WHEREAS, commercial and residential development in Guam continues at an accelerated rate, and many aspects of these developmental activities create a significant impact upon the environment of Guam; and
